Ref.No.MSETCL/CO/TR.(O&M)/

To
The Chief Engineer
EHV CCO&M Zone,
MSETCL,
Amravati/Aurangabad/Karad/Nasik/Nagpur/Pune/Vashi.

Sub : Grant of permission to MSEDCL for construction of 33kV bays at EHV S/S in MSETCL.

In connection with above subject, it is to inform that MSEDCL is constructing 33kV lines & 33/11kV substations under their Infrastructure Plan. MSEDCL has requested us to allow them to construct new 33kV bays at our EHV S/S under their Infra plan. Requests are being received in this regard at C.O. from MSEDCL authorities. This issue was also discussed in the meeting held between CMDs of MSETCL & MSEDCL at C.O. on 7/6/2011. It has been decided to allow MSEDCL to work in EHV S/S premises to carryout their works under Infrastructure plan.

You are, therefore, directed to allow MSEDCL authorities to carry out their works under Infra plan at our EHV S/S on their request to do so from time to time. However, it should be ensured that the equipments being provided/used by MSEDCL are as per MSETCL's standard specification & works should be carried out by MSEDCL or their authorized agencies as per our standard practices & procedures. The SLD incorporating the changes/additional bays may be forwarded to this office as well as to Tr.Proj. Deptt. for ref. & record. Further, provision necessary complete ABT metering arrangement by MSEDCL also needs to be ensured.

You are, therefore, requested to take necessary action accordingly & pass on suitable instructions to field offices in this regard.
