**Notification**

**Sub.:** Carrying out Initial MEDA registration in Single Window Portal for Renewable Energy Projects under GoM Renewable Energy Policy -2020.

Government of Maharashtra has declared the Renewable Energy Generation Policy - 2020 vide Govt. Resolution No. Apau/Pro. No.137/Energy-7, Dt. 31/12/2020. As directed in RE Policy 2020, Single Window Web Portal for Registration/Issue of Grid Connectivity/Commissioning of RE Projects has been developed by MEDA in association with MSEDCL, MSETCL, Chief Electrical Inspector and SLDC.

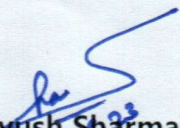

The said Single Window Portal is live from 15/12/2022. Post Go-live, the Renewable Energy Project Developers are applying for Grid Connectivity online through MEDA's Single Window Web Portal and grid connectivity is being issued **through Single Window Web Portal only.**

However, MSETCL has issued Grid Connectivity to various Renewable Energy Projects in offline mode for applications received before 15/12/2023. It is essential to incorporate all the Renewable Energy Projects for which Grid Connectivity is already issued as the **Final grid connectivity for these projects will be issued only through Single Window Web Portal in future.**

***Thus, all the Renewable Energy Project Developers are requested to carry out initial MEDA Registration at MEDA's Single Window Web Portal for their individual Renewable Energy Project by selecting "OLD GC" option.*** After registration the Developers with approved Grid Connectivity letter are required to upload the same through their login.

The Single Window Portal link is available on MEDA's website [www.mahaurja.com](http://www.mahaurja.com) landing page Top, right hand side **or** click on the link <https://regridmeda.mahadiscom.in/swPortal/login>.

All Developers/Applicants are requested to take a note of above and co-operate to make this process successful by carrying out the registration by 30.06.2023.
